

## **Main Project - Dalhousie Trophy**

Each member is invited to submit 12 PDIs, all jpegs, including a title image, on a theme of their choice.

Send to the Competition Secretary, Paul, [bpscomps@gmail.com](mailto:bpscomps@gmail.com) either by email in batches of 2 or 3, or by We Transfer, or Dropbox. A size of 1600 x 1200 megapixels for each image is easier to send than larger files which would have to be resized to send to the judge.

The judge will view the images in order, starting with the title image. Please number your images to show the order in which you would like them to be seen.

Your set of twelve images can tell a story of a place or an event, focus on a particular thing such as a flower, tree, bird, mammal, person, object etc. or any other creative idea you might have.

How you add your lettering is up to you. Lettering is only required on the first image. Words or lettering on other images can be distracting.

It helps to have your images in similar tones and/or the same dimensions, although they're not necessarily expected to be viewed as a group (like the triptych/Mini Panel).
